DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1, drawn to generating a database or data structure, classified in class 707, subclass 102.
- II. Claims 10 – 12, 22 – 24, and 26 – 29, drawn to Object – oriented database structure, classified in class 707, subclass 103R.
- III. Claims 25, drawn to privilege access, classified in class 707, subclass 9.
- IV. Claims 6 – 9, and 13 – 21, drawn to manipulating data structure, classified in class 707, subclass 101.

Inventions **I, II, III, and IV** are related as subcombination and subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention **I** has separate utility such as generating a database or data structure; invention **II** has separate utility such as Object – oriented database structure; invention **III** has separate utility such as privilege access; invention **IV** has separate utility such as manipulating a data structure. Each of the four inventions does not require the particulars of the remaining inventions.

On September 29, 2006, a telephone call was made to Michael A. Glenn to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement, to be complete, must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

This office action sets a one-month period for reply (restriction requirement), the applicant may obtain a two-month extension of time under 37 CFR 1.136(a) before being subject to a reduction of patent term adjustment under 154(b)(2)(C)(ii) and CFR 1.704(b).
